The Customer support service of Huawei can help customers maintain the sustained stable operation or gain support from Huawei timely in the case of faults. According to the requirement of customers, Huawei recommends the following service solution:

Customer support service

SUN2000 SERVICE			
	Service Classification	Service Content	Warranty Period(5 years)
Warranty Service	Remote Support	Help Desk	5*8h
		Remote Technical Support	5*8h (response within 30Min)
		Online Technical Support	Yes
	Hardware Support	Hardware replacement	5*8h*2 BD spare arrive on site

SLA: Service Level Agreement Statement of required performance and responsibilities of each party to the contract.

BD: Business Day.

Notes:

- 1、Warranty Services supply remote support, and hardware support. On-site troubleshooting supplies single service and sold independence.
- 2、SLA is a commit base line. Be modified according to local service capacity, service level is below this standard, if the project needs higher service level, it must be reviewed by organs customer support service department.

➤ Remote Support

Huawei Solar Inverter SUN2000 Warranty and Service Conditions(Network Energy Products)

Remote Support means Huawei provides solutions for technical enquiry or problem of Huawei Equipments to customers by telephone, or Email. It includes Help Desk, Remote Technical support and Online Technical Support.

- **Help Desk** refers to provide technical support to huawei's customers service interfaces and platform, can accept and tracking customers service request.
- **Remote Technical Support** includes technical enquiry and problem handling. The technical enquiry service provides consultation of non-defective question. The problem handling service is to provide solutions to customers for inverters related problem within the time of SLA agreement.
- **Online Technical Support:** Access to Huawei technical support website (<http://support.huawei.com/enterprise/productsupport>), this system provides Customers with helpful maintenance experience, cases and technical support information on Huawei Products.

➤ **Hardware Support**

- Good hardware condition is a prerequisite for solar power system stability. Huawei hardware support ensures customers' equipments run stably.

During the warranty period, Huawei guarantees that all hardware purchased shall

- Be replaced free of charge from defects in material, fabrication, and workmanship.
- Be replaced free of charge if it does not match to the published specifications.
- Huawei will send the replacement device in advance to the mutually agreed customer site within 2 business days after Customer's service request being confirmed. After receiving the replacement device, customer should return the defective device that is packed in the packaging from the replacement device within 15 business days. Defective device not returned in time for any reason may be invoiced.
- Local store spare device. If the spare device is used, will deliver a new one from China to the local, and the spare device update cycle is 30 days
- The replacement device provided by Huawei will be functionally equivalent (feature,

Huawei Solar Inverter SUN2000 Warranty and Service Conditions(Network Energy Products)

function, fit compatible, default software version) to the customer's defective device.

- The replacement device provided by Huawei will have a warranty service period of twelve (12) months from the date when the replacement device is received by the customer, or the remaining of the original Product's warranty or service contract period, whichever is longer.
- Once customers' replacement On-site is happened, Huawei will pay for the Customer replacement fees of device within warranty period.
